

# HydraFacial

**Created to provide the best skin of your life.**

It is so much more than just another facial, it's about **long-term healthy skin and a glowing complexion**. It's an experience. A pleasure. A feeling. And a confidence booster.

The technology it uses is unique; so are the amazing results that it achieves. After just one treatment you'll look great. And feel great. Instantly. And the more you use it – the healthier your skin will become.

**HydraFacial uses advanced, patented vortex technology** to deeply cleanse the skin and **effectively deliver botanical ingredients containing nutrients** such as hyaluronic acid, horse chestnut seed extract, red algae extract, copper, zinc and magnesium peptides **to where they do the most good**.

In addition, HydraFacial also **delivers powerful antioxidants to counteract damage by free radicals** – from pollution, sun and stress – which can degrade the skin and accelerate the ageing process.

**Why settle for an ordinary facial, when you can choose a HydraFacial?** We offer these HydraFacial treatments - **currently only at our London Clinic**. Special price for a series of treatments where indicated\* See website for details.
